## Coat and skin care

### essential' sheen

fortifying & conditioning shampoo

Fortifying and conditioning shampoo with all natural active ingredients, based on chemotyped pure essential oils and jojoba vegetable oil. Protects and strengthens the coat and hair and makes them look healthy, soft and shiny. Stimulates hair growth. Thoroughly cleans the skin and fights fungus, bacteria and other germs. Polishes the hair and helps detangle the mane and tail. Provides suppleness and elasticity to the skin. pH specifically balanced for the horse's skin. 500ml and 5L.

### essential' sensitive

skin-saver shampoo for sensitive skins

Skin-saver shampoo with all natural active ingredients, based on chemotyped pure essential oils. Thoroughly cleans the skin. Protects from mites and other parasites. Soothes skin irritations and itching. Fights fungus, bacteria and other germs. Anti-dandruff action. Helps maintain the sebum balance. pH specifically balanced for the horse's skin. 500ml and 5L.

### essential' groom

hair polish & detangling spray

Polishing and detangling spray based on chemotyped pure essential oils. Protects and strengthens the coat and hair and makes them look healthy, soft and shiny. Polishes the hair and helps detangle the mane and tail. Significantly reduces grooming time. Limits the collection of dust and dirt. pH specifically balanced for the horse's skin. 500ml and 5L.

### essential' repel

insect repellent

Natural insect repellent based on chemotyped pure essential oils. Protects effectively from insects and parasites (mites, ticks, etc.). Calms itching and soothes skin irritations resulting from bites or sunburn. Supports the natural skin regeneration process. Remains effective even when the horse is sweating. Can be applied on a wound. pH specifically balanced for the horse's skin. 50ml roll on, 500ml spray and 5L canister.

### essential' aid

first aid spray

Natural first aid spray based on calendula tincture and chemotyped pure essential oils. One-step day-to-day care of minor skin damage. Thoroughly cleans the relevant area. Soothes and supports the natural skin regeneration process. Helps maintain the skin in healthy condition. Very useful when away from home (hacks, trail rides, shows, etc.). pH specifically balanced for the horse's skin. 100ml.

### essential' dermat

soothing & regenerating gel

Natural soothing and regenerating gel based on aloe vera, plant tinctures, vegetable oils and chemotyped pure essential oils. Supports the natural skin regeneration process. Forms a protective film on the skin. Stimulates hair growth. Fights fungus, bacteria and other germs. Soothes and helps maintain the skin in a healthy condition. pH specifically balanced for the horse's skin. 100ml.

## Muscles, tendons and joints care

### essential' cool

cooling gel

Natural cooling gel based on hamamelis tincture and chemotyped pure essential oils. Cools the legs with lasting effect. Aids the recovery of tired muscles, tendons and joints after intense workouts. Promotes well-being and relaxation. May also be applied on swollen legs and more generally to help maintain healthy legs. pH specifically balanced for the horse's skin. 250ml.

### essential' cool +

cooling lotion - long lasting effect

Natural cooling lotion based on chemotyped pure essential oils. Cools the legs with lasting effect. Aids the recovery of tired muscles, tendons and joints after intense workouts. Promotes well-being and relaxation. May also be applied on swollen legs and more generally to help maintain healthy legs. Concentrated formula for long lasting effect. Convenient spray-on lotion. pH specifically balanced for the horse's skin. 500ml.

### essential' clay

poultice - cold formula

Natural poultice containing green clay and chemotyped pure essential oils. Cools the legs with lasting effect. Aids the recovery of tired muscles, tendons and joints after intense workouts. Promotes well-being and relaxation. May also be used on sore or swollen legs and more generally to help maintain healthy legs. pH specifically balanced for the horse's skin. 1kg, 4kg and 14kg.

### essential' relax

regenerating & relaxing gel

Natural regenerating and relaxing gel based on chemotyped pure essential oils. Aids the recovery of tired muscles, tendons and joints after intense workouts. Helps eliminate toxins. Reduces stiffness. Promotes well-being and relaxation. May also be used in cases of soreness and more generally to help preserve healthy muscles, tendons and joints. pH specifically balanced for the horse's skin. 250ml.

## Hoof care

### essential' protect

frog-saver hoof spray

Natural hoof spray based on plant tinctures and chemotyped pure essential oils. Recommended to maintain healthy frogs. Thoroughly cleans the sole. Fights fungus, bacteria and other germs. Limits fermentation. Allows the hoof to breathe. 100ml.

## Airways care

### essential' air

gel for healthy airways

Natural respiratory gel based on chemotyped pure essential oils. Promotes healthy breathing. Supports the immune system. Can be used to complement a veterinary treatment in case of existing respiratory troubles or alone, for general maintenance, when winter comes or when other horses are experiencing respiratory problems inside the barn. pH specifically balanced for the horse's skin. External use. 250ml.
